

Press Release

Paris, Beijing - Jan 18th 2008

## **6WIND and Beijing Jariton Tech. Co. Ltd sign reseller agreement in China**

**6WIND, leader in embedded networking software, and Beijing Jariton Tech. Co. Ltd today announced an agreement to resell 6WINDGate™ software suites to provide customers in China with a complete networking solution for the new generation of telecom and security equipment.**

New applications such as 3G / 4G network infrastructure, IMS, UTM are requiring more and more networking performance to manage fast-growing number of subscribers, higher bandwidth, and deep packet inspection for service differentiation and secure communications while significantly reducing deployment and operation costs.

6WINDGate™ software suite has been designed to provide a ready-to-use, scalable, modular & portable networking software solution for most advanced hardware architecture including Multi-Core processors. 6WINDGate™ complete & integrated solution is built upon three layers: Fast Path modules, Optimised Linux stack and Control Plane modules. Thanks to standard API between these layers, 6WINDGate™ modular offering perfectly matches customer requirements for new product development and/or upgrade of an existing one with MCNP technology. 6WINDGate™ scalable architecture provides a range of performance between several Gbps (6WINDGate™ ADS), a solution optimising Linux for multi-processing environment, up to multi tens of Gbps (6WINDGate™ SDS) taking advantage from all Multi-Core improvements such as light executive efficiency, built-in crypto-processors, QoS dedicated hardware. More, 6WINDGate™ unique XML-based management system greatly eases the integration of third-party & customer specific software.

*« We are very pleased to partner with Beijing Jariton Tech. Co. Ltd to address the promising Chinese market. We are confident that combining Jariton excellent knowledge of telecoms and security local market and 6WIND local support in China will provide our customers with the best level of support »,* said Eric Carmès, 6WIND CEO.

*«6WIND is the worldwide leader in networking and multi-core related technology, we are very pleased to partner with 6WIND to introduce 6WIND's world-leading networking and multi-core related*

*technology to our customers in China esp. for customers in telecom and security area. We do believe that 6WIND's powerful technology and strong local support will do great favours to our customers to help them face the challenge in networking and multi-core related technology and will definitely help them speed up TTM and cut down development and maintenance cost », said Jennifer Tang, Jariton President*

**About 6WIND**

6WIND is the undisputed leader and innovator of embedded networking software for OEM licensing. The company's software, 6WINDGate™, enables equipment and system vendors to significantly cut development time and costs, simplify network application integration and accelerate the go-to-market process of multi-services IP gateways and systems. 6WINDGate™-empowered equipment are used worldwide for advanced dual-IP interoperability, integrated network security and wireless broadband by ISP and telecommunication operators, defense and public agencies, and industrial corporations.

The company is a spin-out of Thales (HO.FP) with headquarters near Paris, France with a R&D centre in Beijing, China and sales offices in Asia. For more information, please visit [www.6wind.com](http://www.6wind.com)

**About Beijing Jariton Tech. Co. Ltd**

Jariton is a professional distributor in China, partnering with worldwide technology leaders. The company is focusing on Telecom and Security market and is introducing world-leading innovative technologies and solutions to China customers. The company has excellent knowledge and understanding about China market and has deeply penetrated into related China market.

The company is located in Beijing, the Capital of China and is doing business all over China. For more information, please visit [www.jariton.com](http://www.jariton.com) .
